Mosquito Bed
Nets

Balaajie Packaging advises the use of Medicated Mosquito Nets as a protective measure against dangerous diseases like Malaria & Dengue. Excellent Health Benefits and provided to young children, pregnant women and other people such as visitors having little immunity to the diseases. World Health Organisation (WHO) confirms that Medicated Mosquito Nets can decrease childhood mortality by as much one third in malaria affected areas.

What are the benefits of a Medicated Mosquito Net ?

The benefits of a Medicated Mosquito Net are notable. Unlike an ordinary net, a Medicated Mosquito Net does not require patching. The small size of an ordinary net enables mosquitoes to enter into it. A person sleeping against the side of an ordinary net is vulnerable to mosquito-bites. Medicated Mosquito Nets are able to give protection under such situations. Even a small insect like sand-fly can not penetrate Medicated Mosquito Nets. Medicated Mosquito Net works as a protective measure against every biting insects including anopheles mosquito that causes malaria. Medicated Mosquito Net drives away mosquitoes desirous of coming into contact with persons sleeping inside it. Besides protecting people sleeping inside it, a Medicated Mosquito Net also protects those sleeping in the same room even if they are not using it. Medicated Mosquito nets are regarded as better protective measure against mosquitoes than coils and other repellents that cause health hazards. Medicated Mosquito Nets are now regarded the best solution
